Spirit of SPORTS

Sports play an important role in maintaining a healthy and balanced life. They help keep our body fit, strong, and active. Regular participation in sports improves physical fitness, stamina, and flexibility. It also strengthens our muscles and bones while reducing the risk of many diseases. Sports improve heart health and help maintain a healthy body weight. They also enhance coordination, balance, and reflexes.

Apart from physical benefits, sports are equally important for mental well-being. They reduce stress, anxiety, and depression by releasing feel-good hormones. Playing sports improves concentration, confidence, and decision-making skills. It teaches valuable life lessons such as discipline, teamwork, leadership, and perseverance. Sports encourage us to accept both victory and defeat with grace. It also help us build friendships and develop social skills. Participating in sports creates a sense of responsibility and boosts self-esteem. It promotes a healthy lifestyle and keeps us away from unhealthy habits.

*Students should play with **passion**,
compete with **integrity**/ Together lets celebrate
the true spirit of sports and inspire a
healthier, stronger and more confident generation.*
